

DIGITAL TRANSFORMATION

BUSINESS AGILITY

Feedback-driven, not Plan-driven

Are you under pressure to deliver business change faster, increase customer value or empower your teams to be more autonomous?

Are you tired of developing lengthy plans, wasting days on status reports nobody reads, or spending hours in unproductive meetings?

Are you frustrated by bureaucratic processes, office politics and silo mentalities?

Developed in partnership with VisionLed Consulting, this 3-day Business Agility programme combines the latest management practices that will enable you to introduce and manage feedback-driven business change from the strategic level through to the competency teams. The management practices include agile, lean change, lean start-up, business analysis, neuroscience, and programme management.

Peer Network - Spend an intense period in a classroom - sharing war stories and experiences, building your contacts, and learning from experts and peers.

BUSINESS AGILITY

Feedback-driven, not Plan-driven

Is this another methodology?

No, this is not a new methodology, framework or an overview of the programme. It is a practical, competency-based workshop that has been designed around a real-life case study. There is no heavy book to read, and no homework in the evenings. There is no examination.

Just like in real-life, you will 'pass' by being able to apply the skills you have learned to solve real-world business problems.

What do I get?

In addition to the hands-on, interactive workshop, all participants will receive:

- ◆ Business Agility case study and workbook
- ◆ Book on Lean Change Management
- ◆ Access to the Lean Change Agent Network

Participants who successfully pass the workshop exercises will be officially certified as a Lean Change Agent by LeanChange.org
