Admission to the NUS SCTP Data Analytics Programme is granted on a competitive basis as places in the programme are limited. Applicants should possess the following minimum requirements:

Academic	Diploma preferably in Business, Economics, Computing, Mathematics, Engineering, Science or Statistics **Note:** *Applicants with academic qualifications other than the above may be considered on a case-by-case basis, subject to approval by the department.*
Skill/Experience	Comfortable in reasoning quantitatively and performing technology-rich tasks.
Other	Applicants must equip with a laptop that support the installation of the following software. 1. Microsoft Power BI Desktop: https://www.microsoft.com/en-us/download/details.aspx?id=58494 2. R and RStudio: https://posit.co/download/rstudio-desktop/ 3. Orange: https://orangedatamining.com/download/#windows (Add-ons: Text, Explain, Time Series) Windows Systems. It is not recommended to use MacBook. All trainees are required to have access to a Windows laptop, in order for them to be able to download and use data analytics tools, such as Power BI. **Note**: *Please note that the trainers may use a specific version of the software (and not necessarily the latest version). Further information regarding the software installation will be provided to the trainees once they join us.*
